

“Intershipping Services LLC acts as an International Ships Registry for Gabonese Republic” – says Mr Hysham Shaikh

Mr Hysham Shaikh

On the agreement signed with the Government of Gabonese Republic...

Intershipping Services LLC has signed an agreement with the Government of Gabonese Republic to manage and perform on behalf of the Government of Gabonese Republic – all the acts and functions relating to its Maritime Administration thereby covering the functions of the International Ships Registry for the Gabonese Republic. His Excellency, Mr Justin Ndoundangoye, Minister of Transport and Logistics and I signed the agreement on behalf of the Government of the Gabonese Republic and Intershipping Services LLC respectively at the capital of Gabon, Libreville on 15th September 2018.

Benefits of the agreement...

We both will benefit from this agreement. On the Government's front – opening Gabon's ship registry to international owners could be part of a wider strategy to establish Gabon as a centre of maritime trade and expertise in this region. Different types and sizes of ships will fly the Gabon flag worldwide and call at different international ports. Indirectly thus promoting the interest of Gabon.

Role in the collaboration with the Flag state...

Intershipping Services LLC is the exclusive representative for the Maritime Administration of the Gabonese Republic worldwide.

Any challenges in this new development...

We are confident that we can run the flag of Gabonese Republic successfully. For over 2 decades Intershipping Services LLC has been in the maritime industry. We specialise in Ship's Registration and other technical services required by the Ship owners. We also advise and manage the tasks that ship owners, agents, shipbuilders, marine bankers, marine insurance writers and shipping attorneys' faces in matters of buying, installing, managing, maintaining, insuring and compensation, selling and mortgaging ships.

Family business...

We have been in the Maritime Industry for last four decades. I have two brothers – Ibrahim and Omer. Ibrahim has completed his Higher Education in Naval Architecture & Marine Engineering from Plymouth University, United Kingdom (UK) and is currently a Technical Director of Intershipping Services LLC, while Omer is a student at American University of Sharjah, UAE.

Passion for...

I love travelling and reading non-fiction books.
